

EquineChoice®

FOR HORSES

FEATURES & BENEFITS

A complete digestive supplement with 7 modes of action

- + Prebiotic: MOS for toxin binding, and nutrients for beneficial bacteria to flourish
- + Probiotic: Hardy strains of bacteria cultures that survive heat and stomach acid
- + Live Encapsulated Yeast: Survives stomach acids to access hindgut for optimal pH levels
- + Vitamin B Pack: Essential for the healthy function of all cells
- + Vitamin E: An antioxidant and for immune support
- + Amino Acids: Repairs intestinal tissue
- + Digestive Enzymes: Breaks down starches, sugars, and proteins

A variety of applications: Equine Choice paste, Equine Choice granular, AFX liquid

Safe for use in horses in all phases of life

Better feed efficiency, nutrient absorption, and feed utilization

Helps maintain optimum hindgut pH and fibre fermentation

Paste is quickly administered and absorbed during acute digestive issues, stressful situations, after antibiotic use, diet changes, or times of stress

Paste for introducing good bacteria to foals or sick horses within the first 24 hours to build immune strength

AFX buffers stomach acid preventing, soothing, and correcting stomach lesions

Safely used in conjunction with all medications

Long and stable shelf life

Canadian made and owned since 1994

Registered with Health Canada

EQUINE CHOICE PREBIOTIC+PROBIOTIC PASTE

DIRECTIONS FOR USE

Can be used with all horses to introduce the granular supplement, for horses that are not fed daily, or alleviate/eliminate the symptoms of digestive upset, depressed appetite, loose manure from stress, sickness, medications and all other life changes.

Foals, weanlings, and miniatures (under 200 kg) 10 ml per day until tube is complete. Dose (10 ml) may be given twice a day during times of digestive stress.

Horses over 1 year (over 200 kg) 20 ml per day until tube is complete. Dose (20 ml) may be given twice a day during times of digestive stress.

PRODUCT TYPE	SIZES
Paste	80 ml

Health Canada Registration Number
N.N. A0W2

EQUINE CHOICE PREBIOTIC+PROBIOTIC SUPPLEMENT

DIRECTIONS FOR USE

Can be used with all horses daily to restore and maintain healthy fibre fermentation, hindgut function, nutrient absorption, and ultimately overall performance.

Foals, weanlings, and minitures (under 200 kg) 25 gm 2 times per per day. 50 gm twice a day may be given during times of digestive stress.

Horses over 1 year (over 200 kg) 25 gm 2 times per per day. 50 gm twice a day may be given during times of digestive stress.

PRODUCT TYPE	SIZES
Granular	1.7 kg, 4.2 kg, or 20kg

Health Canada Registration Number
N.N. 1Q00

EQUINE CHOICE AFX

DIRECTIONS FOR USE

Can be used with all horses during the weaning process, times of stress, in conjunction with medications for ulcer/stomach issues, or as a regular part of any training program. Provide fresh drinking water before and after administering AFX. AFX is used to buffer stomach acid, and help heal stomach lesions. Use no less than 30 ml per dose for effectiveness.

For weanlings give 60 ml orally per day 3 days before the day of weaning, and 3 days after.

Horses in show, training, trailering, or under stress give 60 ml every 6 hours as needed

Horses with ulcer/stomach issues give 60 ml 2 times daily (can be given more often if needed)

PRODUCT TYPE	SIZES
Liquid	1 Lt, 4 Lt

Health Canada Registration Number
N.N. V8J8
